

Fiber Lounge Armchair Tube Base

“One of the most difficult and noble disciplines of design is to create simple, well-functioning, and almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Lounge Soft Armchair to do just that. The chair’s sculptural language, paired with its wide and ultra soft seat, refuses to compromise on comfort and invites the user to sit for hours. The Fiber Soft Armchair enhances the idea of grand comfort through soft wadding and upholstery. The chair’s inner shell uses recycled plastic for a conscious and innovative perspective on materials.”

— Iskos-Berlin

Designed by	Iskos-Berlin
About the Designer	Iskos-Berlin is a Copenhagen-based design duo that has made international headlines within furniture, industrial and graphic design. The studio, formerly known as Komplot Design has collaborated with some of the world’s most prestigious manufacturers and their furniture, lighting and other design products are exhibited at numerous design museums around the world including MoMA and the Designmuseum Denmark.
Environment	Indoor
Country of Production	Poland
Preassembled	Yes
Description	The Fiber Lounge Armchair features a generously spacious seat and embracing curves that embody the elegance of the Fiber Series in a softer, more inviting form. The chair’s shell is made from 100% recycled plastic, supported by a tube base in powder-coated steel.
Material	The shell is made using 100% recycled plastic mixed with strength-improving additives. The recycled plastic comes from post-consumer waste. The shell is clad with foam and wadding and finished with a high-quality textile, imitation leather, or leather upholstery. Tube base in powder-coated steel. Plastic glides.

Fiber Lounge Armchair Tube Base

Cleaning & Care

Textile: For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing them with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing with soapy water made with a bit of dish soap if necessary. Finally, dab the surface with clean water. We advise visiting Kvadrat.dk, Nevotex.dk, Maharam.com, or Gabriel.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather: Clean with lukewarm PH-neutral, soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterward.

Leather: As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time. **Refine Leather, Easy Leather, and Endure Leather:** Regularly clean leather with a dry cloth. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water otherwise the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products, such as saddle soap, leather cleaners, or household products.

Base: Clean with a moist cloth. If necessary, use a little dish soap on the cloth.
